SAMPE'S ADDITIVE MANUFACTURING SYMPOSIUM, JUNE 14, 2019

The New Jersey Chapter of the Society for the Advancement of Material and Process Engineering (SAMPE) was recently designated as a SAMPE Center of Excellence for Additive Manufacturing and is excited to announce its first event under this initiative – a one-day symposium hosted in cooperation with the Rutgers School of Engineering. This event will highlight Additive Manufacturing technology, research, and collaboration in the Greater New Jersey metropolitan area.

Date: Friday, June 14th, 2019
Location: Rutgers University - New Brunswick, Richard Weeks Hall of Engineering

Call for Papers At this time, NJ SAMPE is inviting all companies & research groups who would like to showcase their AM endeavors to submit abstracts for review. The Symposium will collect and distribute all presentation materials. No formal papers are required for presentations. Instructions for submission are available on the event website.

Registration Fee

Non-SAMPE members - \$150 (to be credited towards a one-year professional membership to SAMPE) SAMPE members - \$100

Any questions should be directed to inquiry@njsampe.org.

Ken-React® Titanates and Zirconates – They Are Different Than Silanes

ADHESION PROMOTION – ETFE to Glass

Without Ken-React®

With Ken-React®

Different because they work differently:

- No hydroxyl (OH-) groups or H₂O needed to form 1.5 nanometer atomic monolayers for complete adhesion.
- No pH sensitivity – special pretreatment needed.
- Proton (H+) reactive with organic/inorganic substrates. Unlike silanes, works with CaCO₃ and Carbon Black
- Add directly into mix for in situ coupling and catalysis – Re & Co polymerization for Compatibility.
- Resist aging and corrosion at the interface.

We create chemistry that makes performers love plastics.

Smart solutions to the challenges of the future

However the plastic processing industry develops in the coming years, you can rely on us to deliver the plastic additives solutions you need. After all, working with our customers to enable new additives applications and innovative solutions has been part of our DNA for many decades. So today, no one is better placed to enable you to successfully achieve your goals.

SECTION NEWS

Thanks to all our sponsors and volunteers this year, and special thanks to Jack Dispenza for his service as president these past 2 years. We have a new slate of officers taking effect, with Mike Carnese moving up to president, Peggy Schipper to vice-president, and Arya Tewatia to president/chair-elect. Francis McAndrew is graciously continuing as treasurer and Maggie Baumann as councilor. The position of secretary is OPEN. If you are looking to get involved and are willing to attend Board meetings, this is a great opportunity for you! Please contact the board at info@spe-pnj.org.

Other open positions are Committee Chairs for Membership, Tech Program, Conferences, and Public Interest. Chairs are not obligated to attend every meeting and can make a big difference in helping our section thrive—consider volunteering!

We ask all members and their companies to consider presenting your latest technologies, tactics, or techniques at one of our monthly meetings, or to consider offering a tour of your facility to educate the local industry members and students. Please contact us at info@spe-pnj.org before August 1 if possible.

Have a great summer and see you in September!
