PRESIDENT'S MESSAGE

Welcome to a new year of the Palisades-MidAtlantic Section of the SPE! We are looking at a very busy first half of the year with Vinyltec® (hosted by PMA) and K-Show. We have an initially light chapter meeting schedule in the fall between the conferences and the holidays with an in-person or hybrid meeting in November (location TBD). Thanks to a productive fellowship dinner, our group's off to a great start with a schedule designed to connect with the many exciting areas of the plastics field and tours. In the spring we will reconnect with meetings at local and universities (Rutgers University and Lehigh University), will result in a more robust organization to grow into the future. Our organization stands on firm legs thanks to the endowment fund chaired, by Stephen Duerr, and the education committee, chaired by Mark Lavach.

Special thanks goes to everyone involved with getting Vinyltec® organized, in particular Mark Lavach and Peg Schipper for the many months of work on getting a wonderful program together. Vinyltec®'s theme this year, "Charting the Course for a Sustainable Future" rings particularly vital as our industry and many others look to create structural solutions to the sustainability problem that has long existed.

This year, Vinyltec®2022 will be a hybrid event held in King of Prussia, PA. This year's conference is a great opportunity to network in person again with manufacturers and suppliers to the Vinyl Industry.

Regards,
Arya Tewatia

SECTION NEWS

Introducing our New Section Secretary: **Stephanie Angelo**

Stephanie earned her B.S. in Chemistry from Wofford College in Spartanburg, SC. She has spent the last 20 years in various businesses within the plastics industry in sales and marketing roles with Milliken & Company, PCC Chemax, and Braskem Polypropylene North America.

She is currently Commercial Manager at PMC Polymer Products, which she joined in 2019 to help grow the company's footprint in halogen and non-halogen flame retardant compounds and masterbatch products. She currently oversees the sales and product development teams for the company and manages short and long-term strategy.

Thank you Stephanie for volunteering as the Palisades-MidAtlantic Secretary!

HONORING OUR FELLOWS AND HONORED SERVICE MEMBERS

The SPE Foundation is establishing a Fellows Scholarship and an Honored Service Members Scholarship. To be named a Fellow or Honored Service Member is a special honor, that is not easily obtained. Honored Service Members are elected for "long-term, outstanding service to, and support of, the Society and its objectives" and Fellows are honored for "their outstanding contributions in the field of plastics engineering, science or technology, or in the management of such activities."

Our legacy sections (*Palisades-New Jersey, Lehigh Valley, Palisades, Newark*) count a long list of Fellows and Honored Service Members. We are proud to be associated with the members of this distinguished list!
